Subject Index – Volume 15 2001

Acoustic startle response
– effects of clonidine and diazepam on prepulse inhibition 237
– effects of clozapine and haloperidol on prepulse inhibition 243
Adrenoceptors
– effects of hypericum at β_1 receptors 47
d-Amphetamine
– effects on performance testing in rats 23
Anisomycin
– retards facilitation of memory in chicks 287
Antidepressants
– discontinuation reaction 139
– effects on social functioning 257
Antipsychotics
– adverse events reported with olanzapine 265
– augmentation by lamotrigine or topiramate 297
– cardiovascular deaths related to atypical drugs 120
– effects on neutrophil maturity 191
– effects on latent inhibition in healthy volunteers 96
– effects on prepulse inhibition of acoustic startle response 243
– 5-HT_{1A} receptor agonism by atypical drugs 37
– hyperprolactinaemia 293
– suicidality in schizophrenia 127
– treatment of bipolar affective disorder 55

Baclofen
– neuroleptic malignant syndrome after abrupt withdrawal 61
Benzodiazepine
– effects on sleep in social drinkers 3
– LY354740 acting via binding site 76
Bipolar affective disorder
– pharmacokinetics of sodium valproate 187
– presenting with lethal catatonia 302
– treatment in clinical practice 55

Carbamazepine
– treatment of bipolar affective disorder 55
Catatonia
– mimicking neuroleptic malignant syndrome 302
βCCM
– sedative effects in stressed mice 155
Chlorpromazine
– acute effects on latent inhibition in healthy volunteers 96
– effects on neutrophil maturity 191
Cinnarizine
– effects on psychomotor performance 167
Citalopram
– personality effects in healthy volunteers 195
Classical conditioning
– effects of serotonin depletion in rats 83
Clomipramine
– panic disorder 13
Clonidine
– effects mediated by α_2 receptors in mice 18
– effects on prepulse inhibition of acoustic startle response 237
Clozapine
– augmentation with lamotrigine 297
– effects on neutrophil maturity 191
– effects on prepulse inhibition of acoustic startle response 243
– 5-HT_{1A} receptor agonism 37
Cognitive impairment
– in chronic Ecstasy users 273
Cognitive testing
– validity of use of pen computer 105
Context processing
– no effect of *d*-amphetamine in rats 23
Continuation therapy
– nefazodone and paroxetine in depression 161
Corticosterone
– facilitates memory formation in chicks 287
Cortisol
– low plasma levels in depersonalisation syndrome 93

Dalhousie Cocktail
– for treatment-resistant depression 136
Depersonalization syndrome
– related to quetiapine treatment 209
– symptoms improved by naloxone 93
Depression
– augmentation in treatment resistance 136
– continuation treatment with nefazodone or paroxetine 161
– in chronic Ecstasy users 181
– social functioning and antidepressant treatment 257
– suicidality in schizophrenia 127
Diazepam
– effects on prepulse inhibition of acoustic startle response 237
Dimenhydrinate
– effects on psychomotor performance 167
Dopamine
– D_2 receptor occupancy of olanzapine 214
– effects of chronic methylphenidate administration in rats 67
– reuptake inhibition by hypericum 47

Ecstasy
– cognitive impairment following chronic use 273
– depressive symptoms following chronic use 181
Extrapyramidal symptoms
– in combination therapy with fluoxetine and risperidone 142
– reported with olanzapine 265

Flumazenil
– blocks anxiolytic effects of LY354740 in rats 76
– sedative effects in stressed mice 155
Fluoxetine
– adverse events in combination therapy with risperidone 142
– effects on social functioning in treatment of depression 257
– increases firing rate of lateral septal nucleus neurones in rats 231

GABA
– agonist effects of LY354740 76
– partial agonist (pagaclone) in panic disorder 205
– reuptake inhibition by hypericum 47

Generalized anxiety disorder
– improved vagal cardiac control using kava kava 283
Gilles de la Tourette syndrome
– serotonin function 111
Glucocorticoids
– low plasma levels in depersonalisation syndrome 93
Glutamate
– hyperfunction in schizophrenia 297
– reuptake inhibition by hypericum 47

Haloperidol
– acute effects on latent inhibition in healthy volunteers 96
– effects on prepulse inhibition of acoustic startle response 243
– low doses effective in schizophrenia 251
Hypericum perforatum
– pharmacology 47
Hyperprolactinaemia
– antipsychotic treatment 293
Hypnotic
– effect on sleep in social drinkers 3

Idazoxan
– blocks effects of clonidine in mice 18
Imidazoline receptors
– I_2 receptor ligands in forced swim test in mice 18
Indorenate
– discriminative stimulus properties 29

Kava kava
– improves vagal cardiac control in generalized anxiety disorder 283

Lamotrigine
– augmentation of antipsychotic treatment 297
Latent inhibition
– acute effects of psychotropic drugs in healthy volunteers 96
Lateral septal nucleus
– neuronal firing rate increased by fluoxetine in rats 231
Leucocytes
– effects of antipsychotics on neutrophil maturity 191
Lithium
– treatment of bipolar affective disorder 55
LY354740
– anxiolytic actions via GABA-A receptor 76

MDMA
– cognitive impairment following chronic use 273
– depressive symptoms following chronic use 181
Memory
– effects of tryptophan loading 219
– facilitation by light and corticosterone in chicks 287
Methylphenidate
– effects of chronic administration in rats 67
Monoamine oxidase
– reversible inhibition by hypericum 47
Mood stabilizer
– treatment of bipolar affective disorder 55
Multiple Organs Coincidences Counter (MOCC)
– occupancy of noradrenaline reuptake site by venlafaxine 9

N1/P2 auditory evoked potential
– effects of clonidine and diazepam in healthy volunteers 237
– effects of clozapine and haloperidol in healthy volunteers 243
Naloxone
– improves symptoms of depersonalisation syndrome 93

Nefazodone
– continuation treatment for depression 161
– treatment of premenstrual dysphoric disorder 58
– treatment-resistant depression 136
Neuroleptic malignant syndrome
– following abrupt withdrawal of baclofen 61
– lethal catatonia 302
– reported with olanzapine 265
Noradrenaline
– effect of chronic tramadol in rats 147
– reuptake inhibition by hypericum 47
Nortriptyline
– effects on social functioning in treatment of depression 257

Obsessive Compulsive disorder
– presence of tics and serotonin function 111
Olanzapine
– adverse events in postmarketing survey 265
– plasma levels vs dose 213, 214
– treatment of lethal catatonia 302
Opioids
– endogenous opioids and depersonalisation syndrome 93

Pagaclone
– treatment of panic disorder 205
Panic disorder
– maintenance treatment with clomipramine 13
– treatment with pagaclone 205
Paroxetine
– continuation treatment for depression 161
– discontinuation syndrome 139
– effects on cognitive function 173
Pen computer
– validity of use in cognitive testing 105
Personality
– effects of citalopram in healthy volunteers 195
Pharmacokinetics
– sodium valproate in bipolar affective disorder 187
Pindolol
– in treatment-resistant depression 136
Placebo response
– in social phobia 199
Premenstrual dysphoric disorder
– treatment with luteal phase nefazodone 58
Prepulse inhibition
– of acoustic startle response in healthy volunteers 237, 243

QT_c interval prolongation
– sertindole compared to other atypical antipsychotics 120
Quetiapine
– depersonalization-derealization syndrome in schizophrenia 209
– 5-HT_{1A} receptor agonism 37

Risperidone
– adverse events in combination therapy with fluoxetine 142
Ro 15-4513
– sedative effects in stressed mice 155
RU486
– retards memory facilitation in chicks 287

St John's Wort
– pharmacology 47
Schizophrenia
– augmentation of antipsychotic treatment with lamotrigine or topiramate 297

– depersonalization-derealization syndrome related to quetiapine treatment 209
– depression and suicide 127
– effects of antipsychotics on neutrophil maturity 191
– low doses of haloperidol have antipsychotic effect 251
– role of 5-HT_{1A} receptor agonists 37
Scopolamine
– effects on psychomotor performance 167
Seasickness
– psychomotor effects of drug treatments 167
Serotonin
– actions of indorenate at various receptor sites 29
– central depletion and classical conditioning in rats 83
– effects of chronic tramadol in rats 147
– effects of hypericum on 5-HT_{1A} and 5-HT_2 receptors 47
– effects on memory of tryptophan loading 219
– function in OCD 111
– function in Tourette's syndrome 111
– 5-HT_{1A} receptors in schizophrenia 37
– treatment-resistant depression 136
Sertindole
– cardiovascular events in postmarketing period 120
Sertraline
– effects on cognitive function 173
Social functioning
– effects of antidepressant treatment 257
Social phobia
– placebo response in clinical trials 199
Sodium Valproate
– pharmacokinetics in bipolar affective disorder 187
– treatment of bipolar affective disorder 55
SSRIs
– effects on cognitive function in healthy volunteers 173
– effects on personality in healthy volunteers 195
– increase firing rate of lateral septal nucleus neurones in rats 231
Suicide
– risk factors in schizophrenia 127

Topiramate
– augmentation of antipsychotic treatment 297
Tourette's syndrome
– serotonin function 111
Tramadol
– effect on monoamine function in rats 147
Triazolam
– effect on sleep in social drinkers 3
Tryptophan
– effects on memory 219
– in treatment-resistant depression 136

Urinary retention
– caused by combination therapy with fluoxetine and risperidone 142

Vagal cardiac control
– improved by kava kava in generalized anxiety disorder 283
Venlafaxine
– discontinuation syndrome 139
– occupation of noradrenaline reuptake site 9

Yohimbine
– blocks effects of clonidine in mice 18

Ziprasidone
– 5-HT_{1A} receptor agonism 37
